China's Sparkle Roll Group Appointed Sales Agent for AS2 Supersonic Business Jet

Reno, Nevada and Shanghai, China (Asia Business Aviation Conference and Exhibit ABACE) — April 14, 2015 — Aerion Corporation has appointed Sparkle Roll Group as its exclusive representative for the sale of the Mach 1.5 AS2 business jet in Mainland China, Hong Kong, Macau and Taiwan. Aerion and Sparkle Roll Technik Co., Ltd. ('SRT'), a subsidiary company of Sparkle Roll Aviation (Holding) Group, have signed an Independent Sales Representative Agreement this week.

Sparkle Roll Group is a diversified retailer of top-end automobiles and a broad portfolio of luxury products and services, as well as a distributor of movies and operator of cinemas. It is also one of China's largest CCAR Part 135/91 operators, managing a range of large-cabin and mid-size business aircraft.

"Sparkle Roll knows our market, knows the customer base for the AS2 and will play a key role in introducing routine supersonic flight in China and beyond," said Aerion Co-Chairman Brian Barents. "We are delighted to work with them at the leading edge of business aviation."

Sparkle Roll is launching its representation of the Aerion AS2 at the ABACE trade show in Shanghai. The AS2, in development by Aerion Corporation in Reno, Nevada, is a 9-12 place supersonic business jet with a planned service entry date of 2022.

"Chinese business leaders will save hours on every long range flight in the AS2 versus a subsonic jet," noted Mr. Li Xuefeng (Lee Li), Chairman of Sparkle Roll Technik Co., Ltd. and Executive Director/CEO of Sparkle Roll Aviation (Holding) Group. "There is no question that the benefit of substantially greater speed will be highly valued by aviation users in our markets."

About Aerion Corporation

Aerion Corporation of Reno, Nevada, was formed in 2002 to reintroduce commercial supersonic flight, which ended with the retirement of the Concorde airliner in 2003. Over more than a decade, Aerion has demonstrated new, advanced wing technology in conjunction with NASA and other leading aeronautical institutions. This research

includes breakthrough work in the area of supersonic natural laminar flow, the key enabling technology behind the AS2 business jet's practical and efficient supersonic design. More information can be found at www.aerionsupersonic.com

About Sparkle Roll Group

Beijing-based Sparkle Roll Holdings Investment Co. Ltd (SRH) has grown over 10 years to become one of the leading luxury goods distribution entities in China. SRH has over 40 trading and distribution companies under management. Sparkle Roll Technik Co., Ltd. is the aircraft sales arm of the group. See www.sr-jet.com.

About Sparkle Roll Technik Co., Ltd.
